## Problem Identification

### Problem Identification

The Problems to which the Monroe Youth Challenge Program (MYCP) are responding are: 1) increases in middle school fighting and bullying, alcohol-related usage, suspension rates, and arrests; and 2) decreases in the age that students are reporting using gateway drugs - in particular, cigarettes and alcohol.

### Significance

These problems are significant because: 1) early usage of gateway drugs such as alcohol and tobacco is often a precursor to the use of harder drugs such as methamphetamine and cocaine; 2) there is a noteworthy correlation between alcohol or chemical dependency and criminal activity according to several studies released by the National Institute of Child Health and Human Development (NICHD); 3) fighting and bullying are the major causes of violence in middle schools which, in turn, are the most common reasons for out of school suspensions; and 4) increased suspension rates correlate to increased drop out rates.

The at risk youth, their families, victims as well as the local community as a whole are affected by the social and economic cost of the increase in juvenile substance abuse and crime.

### Needs Assessment.

The scope of the problem of middle school usage of gateway drugs, in particular, alcohol and tobacco, is indicated by surveyed Monroe County high school students reporting that they first used cigarettes at 12.4 years old, had tried alcohol at 13.2, and drank at least once a month at 14.8. This was self reported in the 2004 Florida Youth Substance Abuse Survey which also showed that 22.5% of Monroe County middle school students drank alcohol in the past 30 days. (2.2% higher than the state average).

The same study showed an increasing trend in the delinquent behavior of Monroe County middle school students involving arrests and attacking someone with intent to do harm. The Sheriff's office reported that middle school students represent less than 1/3 of the total students, yet constitute 60% of the 50 reported citations and arrests in school year 04/05. Of the 30 middle school arrests, 80% were due to fighting or battery on other students or staff.

## Project Summary

Project Summary

One Year Goals:

Reduce teasing and bullying behavior by 5% among middle school students.

Facilitate decision making and conflict resolution programs to decrease the number of reported fights in the middle school setting by 5%.

Assist in the reduction of alcohol usage, specifically binge drinking, by middle school students by 5% in the 2005-2006 school year as reported in Florida Youth Self Assessment Survey.

Two Year Goals:

Create a Be The Change Club at Middle Schools in which students demonstrate a commitment to drug-free norms, community service and peer support via school wide campaigns, service projects and Natural Helpers.

Increase the use among middle school students of community based training programs and youth services by 5%.

The provider will be the Monroe County Education Foundation; its address is 241 Trumbo Road, Key West, FL 33040

The relationship of the County to the provider is contractual.

A license is not required. All Substance abuse education is provided by third party agencies or motivational speakers in assemblies or classroom presentations. MYCP only coordinates events and is not the primary provider of any substance abuse trainings.

This is not a new activity for the service provider. Over the past 4 years, we have developed a variety of programs for high school students designed to reduce violence and other at-risk behaviors, and improve peer relations, while increasing personal life and leadership skills. MYCP has hosted over 20 Challenge Days providing anti violence training to over 1700 students. MYCP sponsored BE THE CHANGE clubs and a leadership class during the day at each high school.

MYCP sponsored anti drug and anti violence trainings in all the high schools such as the Florida National Guard's Knight Vision Drug Education Training.

In a letter dated April 28, 2003, Coral Shores High School (CSHS) counselor, Cindy Ypsilanti said, "I have seen a tremendous change in our students' relationships with each other on campus and in the community since many of the strategies of community service, mentoring and helping each other has come to fruition through such programs we have implemented in the Upper Keys as Challenge Day, Ropes training, Natural Helpers, and the S.M.I.L.E. club ( Students Mentoring in Life Everyday) during the past

two years. Students are learning how to effectively communicate through active listening, problem solving and they bring real concerns to adults as needed. Teenagers go through difficult times trying to fit in and belong to a peer group. By identifying this process as a common and universal need through the interactive supportive programs, students are learning that they are not alone in this process of growing and finding themselves. These program initiatives have become the heart and soul of our school."

She also found that Leadership Class participants had an average increase of .2 in their accumulative grade point average via a sampling of student grades.

A review of the 2002-03 School Environmental Safety Incident Reports showed that CSHS overall incidents of anti social behavior had a decrease of 67%.

Incidents of arrests for high school students dropped from 7.7 in 2001 to 6.9 in 2004 and incidents of attacks with intent to harm dropped from 12.3 in 2001 to 10.9 in 2004.

We cooperate with numerous community agencies and civic clubs, including Rotary, Sheriff Dept, American Red Cross, Big Brothers Big Sisters, and 4H.

Staff includes:

Community Development Coordinator: will develop partnerships and build up the volunteer groups. This will be done by regular meetings for volunteers and email.

Prevention Coordinator: oversees community projects, trainings and campaigns, done in conjunction with a school liaison and teacher.

Admin. Asst.: will handle correspondence, financial management, policies and procedures, public relations, special projects, volunteer coordination program evaluations, data management.

Challenge Day and Conflict Resolution training are planned for Prevention Coordinators and adult volunteers.

Key Personnel are the Prevention Coordinators who coordinate the implementation and evaluation of all trainings and student planned events. They may also provide direct training to students, school faculty or staff and community volunteers.

The number of staff who will be providing project activities is four; they are contract staff, fifty percent of the positions will be funded with project funds.

There is no project equipment.

Project Location.

Throughout Monroe County, public and private middle schools and youth providers.

## Project Summary (Continued)

Monroe Youth Challenge Program will offer the following activities:

Motivational assemblies and speakers, Gateway Drug and Anti Bullying Trainings, Peer Education, School Clubs and Service Projects, and Natural Helpers Peer Assistance Program.

One Contact hour with one student is the unit of measurement. This includes training, drug-free events, and service projects.

The project will perform this activity weekly

An average of 20 middle school youth will be involved per activity. Some will have fewer. Some, such as assemblies may have 300 students.

MYCP will provide a minimum of 2000 defined units. This would reflect half of the middle schoolers in the county receiving 2 contact hours of anti drug, anti violence, or life skills training.

Our target group is middle school age students of both sexes at all Monroe County schools.

Participants will be selected by teachers, counselors, and administrators. The Prevention Coordinator will recruit additional at-risk students. Students who will be Natural Helpers are chosen by fellow students.

The only criterion for participants to qualify for programs is that they be in middle school. Students with at-risk behaviors such as excessive referrals, absences, tardies, or poor academic performance will be specifically targeted.

### Project Results

#### Measurement:

Florida Youth Survey reporting, Monroe County's Climate Survey, School incidence reports, School Environmental Safety Incident Reporting (SESIR).

#### Successful Completions for Group

Reduction of incidents of fighting, bullying and arrests in Middle School. Reduction of binge drinking and other alcohol related incidents.

#### Successful Completions for Individuals

Reduced number of discipline referrals, increased involvement in school and community activities and promotion to next grade.

Improved knowledge and healthy attitudes toward Gateway drugs, in particular tobacco and alcohol, as measured by a Project Alert Survey.

## Project Summary (Continued)

If a student attending one of our programs attempts to leave, we will assess the student and provide alternative assistance.

Our most effective incentive for student participation is community sponsored awards as appropriate and community service hours that are added to the student's high school portfolio.

- b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

## Section 2 Project Overview

### General Project Information

**Project Title:** FAMILY TREATMENT DRUG COURT

**Project Sequence No:** 0

**Subgrantee:** Monroe County Board of Commissioners

**Implementing Agency:** Monroe County Board of Commissioners

**Project Start Date:** 10/1/2005

**End Date:** 9/30/2006

### Problem Identification

This program addresses the outpatient substance abuse treatment needs of domestic abuse offenders.

The Florida Department of Children & Families (DCF) indicates that there are about 864 reports of abuse and neglect per year in Monroe County. DCF estimates that 75% of the reports have substance abuse involvement. Of the number of reports made, about 143 cases are filed in Dependency Court each year. While the Dependency Law intent, noted in Florida Statute 39.001, is to provide for the care, safety, and protection of children in an environment that fosters healthy social, emotional, intellectual, and physical development, there is no coordinating program which combines a Drug Court Model for the convicted substance abusers who also have dependency court cases in the Middle and Upper Keys.

#### Problem Significance.

The problem of providing substance abuse treatment for parents who are also facing dependency issues is significant because those issues affect the whole family physically, mentally, and economically. The community is affected by crime that often accompanies substance abuse and family problems, committed both by parents and children. When there are also issues of abuse and/or children being removed from their home or their parents' custody all those effects are compounded.

#### Needs Assessment.

The demand for outpatient substance abuse treatment in Monroe County far exceeds the County's capacity. The Florida Department of Children & Families (DCF) indicates that there are about 864 reports of abuse and neglect per year in Monroe County. DCF estimates that 75% of the reports have substance abuse involvement. Of the number of reports made, about 143 cases are filed in Dependency Court each year. An estimated 205 children in the state of Florida, die each year as a result of child abuse.

Despite the Dependency Law Intent, noted in Florida Statute 39.001, to provide for the care, safety, and protection of children in an environment that fosters healthy social, emotional, intellectual, and physical development, there are no identified funding sources to support a Drug Court Model for the Substance Abusing Dependency Court participants in the Middle and Upper Keys.

## Problem Identification (Continued)

Whether located in a small jurisdiction (population under 200,000) or a large metropolitan area (population over 750,000), retention rates for drug courts remain high, from 65% to 85%. As of June 2001, there were 2,100 drug-free babies born to drug court participants enrolled in drug court programs. Approximately 230,000 individuals have entered treatment services through adult drug court programs in the United States as of January 1, 2002. Sixty-one percent (61%) of drug court treatment providers report that the annual cost of treatment services per client ranges between \$900 and \$3,500. Given this range, the average annual cost per defendant for treatment services is far lower than the \$20,000 average annual cost of incarceration.

## Section 2 Project Overview (cont.)

### Project Summary

The Care Center for Mental Health will provide a Drug Court model of substance abuse treatment services for identified clients of the Department of Children and Families who are involved both with dependency cases and the drug courts in the Middle and Upper Keys. The Family Treatment Drug Court Program will supply a qualified therapist, headquartered and supervised at the Care Center of the Upper Keys, to provide services from Big Pine Key to Key Largo.

#### Project Goals

The project would aim at providing services to approximately 20 participants and their families each year.

The service provider agency is The Care Center for Mental Health/Upper Keys, at 92140 Overseas Highway, Suite 5, Tavernier, Florida 33070

The Care Center will have a contractual relationship with Monroe County.

The Care Center for Mental Health is licensed by the Department of Children and Families under chapter 65D, FAC to provide substance abuse treatment and other services.

Neither substance abuse treatment nor working with families in crisis is new to the Care Center. The Upper Keys center, under the name Guidance Clinic of the Upper Keys, has been providing services in both arenas for over 30 years.

Cooperating and participating agencies include the criminal justice system and the Dept. of Children and Families.

#### Project Staff

Project staff will consist of one counselor who will work in cooperation with Wesley House Family Services and Drug Court. She will meet with their case managers regularly and receive referrals from them. She will provide the usual structured program designed by Drug Court for the substance abuser as well as providing family therapy and individual therapy for the rest of the family. These services will be provided as much as possible in people's homes to improve compliance.

Initial training for this program has already been done by Drug Court and Care Center personnel. Additional training will occur when the counselor is included in the regular required training of both programs.

Drug Court Family Treatment Counselor: This person is responsible for receiving referrals, assessing and providing counseling services to the target population of substance abusers, their spouses/partners and their dependent children.

Site Director/Care Center for Mental Health/Upper Keys: This person is responsible for supervising the direction and quality of services provided by the Drug Court Family Treatment Counselor. She is a qualified professional and will sign off when necessary

## Project Summary (Continued)

on reports and other documents.

One staff member will provide all activities.

The Drug Court Family Treatment Counselor and the Site Director are agency staff.

Only the Drug Court Family Treatment Counselor will be funded with project funds.

The Drug Court Family Treatment Counselor will be working under the Care Center's license.

There is no particular equipment required and what is will be provided by either the Care Center or Drug Court.

### Project Location.

The project is designed to serve families in the Middle and Upper Keys. The counselor will work out of the Care Center Upper Keys office. Activities will take place at Care Center offices or clients' residences.

The target area is from Big Pine Key north to Key Largo, within Monroe County, Florida.

### Project Activities/Administration

Describe all activities to be provided.

1. Assessment of referred individual and other family members.
2. Individual counseling
3. Group Counseling for referred individual
4. Family Counseling
5. Educational/Vocational Counseling
6. Case Management

Unit of Measurement will be one direct service hour.

Frequency of service will depend on both the phase of treatment and the individual needs of each participant and their family. It can range from 2 individual sessions and one group for the participant, plus additional family/individual sessions for the family to less frequent contacts as treatment progresses.

The goal is to serve twenty families per year. The total number of participants will vary depending on the size of their families, but will certainly equal no fewer than forty. All drug court participants will participate in the required activities of their phase of treatment at a minimum plus whatever family sessions are scheduled. Depending on the particular make-up of a family, different people may participate in some activities but not others.

20 participants X 5 hours per week of treatment (individual, group & family) X 50

## Project Summary (Continued)

weeks/year = 5000 estimated units NOTE: obviously one counselor cannot provide 100 hours per week of service so this will be staggered depending on phase of treatment. Those nearing the end of the process will be seen less frequently than those just beginning.

It is hoped that a majority of participants will stay with the program for the entire year as they do with Drug Court.

Target Groups, Clients, and Participants.

Drug Court Family Treatment participants can range in age from 18 up, be either male or female and have a case pending in dependency court.

Referrals to this program will be made by Drug Court counselors and/or Wesley House Family Services case workers. Eligibility will be determined by the Drug Court Family Treatment counselor.

There are no additional criteria required for participation except having been sentenced to Drug Court and having an open case in dependency court.

Participants in this project will have outstanding cases at both Drug Court and dependency court, both of which will provide referrals.

### Project Results

Successful completion will be staying clean and sober as well as making progress on the case plan required for the dependency case to be closed. It will be measured by attendance at individual, group and AA meetings, clean urine analysis, family stability, regular employment/school attendance, economic responsibility and improved family relationships.

Consequences for not fulfilling a Drug Court requirement will be the same as they are for regular Drug Court participants, i.e. legal sanctions and/or being dropped by the program. Consequences for other breaches may or may not be the same depending on the severity of the offense.

Incentives of being released from Drug Court and/or having one's case closed by Wesley House and dismissed from court are built into this program.

The data collected must be available to U.S. DOJ and FDLE upon request.

#### **29. Overtime for Law Enforcement Personnel**

Prior to obligating funds from this award to support overtime by law enforcement officers, the U.S. Department of Justice encourages consultation with all allied components of the criminal justice system in the affected jurisdiction. The purpose of this consultation is to anticipate and plan for systemic impacts such as increased court dockets and the need for detention space.

#### **30. Criminal Intelligence System**

- a. The purpose of the federal regulation published in 28 CFR Part 23 - Criminal Intelligence Systems Operating Policies is to assure that subgrant recipients of federal funds for the principal purpose of operating a criminal intelligence system under the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3701, et seq., as amended, use those funds in conformance with the privacy and constitutional rights of individuals.
- b. The subgrant recipient and a criminal justice agency that is the implementing agency agree to certify that they operate a criminal intelligence system in accordance with Sections 802(a) and 818(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended and comply with criteria as set forth in 28 CFR Part 23 - Criminal Intelligence Systems Operating Policies and in the Bureau of Justice Assistance's Formula Grant Program Guidance. Submission of this certification is a prerequisite to entering into this agreement.

- c. This certification is a material representation of fact upon which reliance was placed when this agreement was made. If the subgrant recipient or criminal justice agency operates a criminal intelligence system and does not meet Act and federal regulation criteria, they must indicate when they plan to come into compliance. Federal law requires a subgrant-funded criminal intelligence system project to be in compliance with the Act and federal regulation prior to the award of federal funds. The subgrant recipient is responsible for the continued adherence to the regulation governing the operation of the system or faces the loss of federal funds. The Department's approval of the subgrant recipient agreement does not constitute approval of the subgrant-funded development or operation of a criminal intelligence system.

### **31. Confidential Funds**

A signed certification that the project director or the head of the Implementing Agency has read, understands, and agrees to abide by all of the conditions for confidential funds as set forth in the effective edition of OJP's Financial Guide is required from all projects that are involved with confidential funds from either Federal or matching funds. The signed certification must be submitted at the time of grant application.

### **32. Equal Employment Opportunity (EEO)**

No person, on the grounds of race, creed, color or national origin shall be excluded from participation in, be refused benefits of, or otherwise subjected to discrimination under grants awarded pursuant to Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973, as amended; Title IX of the Education Amendments of 1972; The Age Discrimination Act of 1975; and, Department of Justice Non-Discrimination Regulations 28 CFR Part 42, Subparts C, D, E, F, G and H.
- b. The subgrant recipient and the implementing agency agree to certify that they either do or do not meet EEO program criteria as set forth in Section 501 of The Federal Omnibus Crime Control and Safe Streets Act of 1968, as amended and that they have or have not formulated, implemented and maintained a current EEO Program. Submission of this certification is a prerequisite to entering into this agreement. This certification is a material representation of fact upon which reliance was placed when this agreement was made. If the subgrant recipient or implementing agency meet Act criteria but have not formulated, implemented and maintained such a current written EEO Program, they have 120 days after the date this agreement was made to comply with the Act or face loss of federal funds subject to the sanctions in the Justice System Improvement Act of 1979, Pub. L. 96-157, 42 U.S.C. 3701, et seq. (Reference Section 803 (a) of the Act, 42 U.S.C. 3783 (a) and 28 CFR Section 42.207 Compliance Information).
- c. Any subgrant recipient or implementing agency receiving a single grant award for \$500,000 or more OR an aggregate of grant awards for \$1,000,000 or more during any 18 month period in federal funds, must have approval of its EEO Plan by the U.S. DOJ, Office for Civil Rights (OCR). The subgrantee shall submit its EEO Plan to FDLE, for submittal to the U.S. DOJ, OCR for approval. The submission shall be in both paper copy and electronic format. If the U.S. DOJ, OCR has approved an agency's EEO Plan during the two previous years, it is not necessary to submit another EEO Plan. Instead, the subgrantee need only send a copy of its approval letter from the OCR. However, if the EEO Plan approval is more than two years old, an updated Plan must be submitted.
- d. In the event a Federal or State court of Federal or State administrative agency makes a finding of discrimination after a due process hearing on the grounds of race, color, religion, national origin, sex, or disability against a recipient of funds, the recipient will forward a copy of the finding to the Office for Civil Rights, Office of Justice Programs.

**33. Americans with Disabilities Act**

Subgrantees must comply with the requirements of the Americans with Disabilities Act (ADA), Public Law 101-336, which prohibits discrimination by public and private entities on the basis of disability and requires certain accommodations be made with regard to employment (Title I), state and local government services and transportation (Title II), public accommodations (Title III), and telecommunications (Title IV).

**34. Immigration and Nationality Act**

No public funds will intentionally be awarded to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324a(e), Section 274A(e) of the Immigration and Nationality Act ("INA"). The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the INA. Such violation by the subgrant recipient of the employment provisions contained in Section 274A(e) of the INA shall be grounds for unilateral cancellation of this contract by the Department.

- (4) Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or educational environments.

- b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

**36. Non-Procurement, Debarment and Suspension**

The subgrant recipient agrees to comply with Executive Order 12549, Debarment and Suspension (34 CFR, Part 85, Section 85.510, Participant's Responsibilities). These procedures require the subgrant recipient to certify it shall not enter into any lower tiered covered transaction with a person who is debarred, suspended, declared ineligible or is voluntarily excluded from participating in this covered transaction, unless authorized by the Department.

- b. This certification is a material representation of fact upon which reliance was placed when this agreement was made. Submission of this certification is a prerequisite to entering into this agreement subject to conditions and penalties imposed by Section 1352, Title 31, United States Code. Any person who fails to file the required certification is subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each failure to file.
- c. The undersigned certifies, to the best of his or her knowledge and belief, that:

## Section 2: Project Overview

### General Project Information

**Project Title:** PEACOCK APTS. DUAL-DIAGNOSED OFFENDER HOUSING

**Project Sequence No:** 0

**Subgrantee:** Monroe County Board of Commissioners

**Implementing Agency:** Monroe County Board of Commissioners

**Project Start Date:** 10/1/2005

**End Date:** 9/30/2006

### Problem Identification

#### Problem Identification

Lack of supportive housing for the dually diagnosed residents (those with both a mental illness and a substance abuse problem). The mentally ill are often incarcerated for minor crimes, which are a result of their illness. They rarely understand the charges against them, and some are incompetent to stand trial. Incarceration of these people is considerably more expensive than for the average offender; they need ongoing mental health treatment and supervision. Supervision is needed to prevent suicide attempts while in jail, ensure medication compliance, and to prevent victimization by other prisoners. By releasing them into our community based offender supportive housing program, clients will have a safe residence, address their mental health issues, improve life skills, develop a treatment program, and become a productive member of our community.

Dually diagnosed offenders who are homeless, in jail, awaiting trial or pending release would be better served in a supportive housing program. This prevents unnecessary incarcerations and hospitalizations

#### PROBLEM SIGNIFICANCE:

Monroe County has a tourist-based economy and is negatively impacted by this visible population. Homelessness, substance abuse, unemployment, loitering, panhandling, criminal activity, and health/hygiene/sanitation problems all negatively affect the tourism industry, as well as the life quality of our permanent residents.

#### NEEDS ASSESSMENT:

Monroe County's Continuum of Care states that there are approximately 2,000 homeless people living in the county. To compound the problem, the county has one of the highest costs of living in the state, with rents the highest in the state. Reportedly, 30% of the homeless have mental illness and 10% of the incarcerated population suffer from mental illness.

Mentally ill homeless residents with histories of substance abuse often become incarcerated. Upon release, many of these individuals become homeless and mentally unstable, especially when they are no longer on a medication regimen.

## Section 2 Project Overview (Cont.)

### Project Summary

#### Goals.

To identify the potential client population, through contact with the mental health providers and the criminal justice system.

Clients are referred to this program as an alternative to a detention center, from the Court system, with both a substance abuse problem and a mental illness.

To provide 8 offenders with residential services, including housing, utilities, furniture, cable TV, phone, camaraderie, transportation to NA/AA, supervision, monitoring, referral to mental health and substance abuse treatment, random drug testing, case management, and supervision of medication.

Provide referrals to other appropriate programs for offenders who do not meet our criteria.

Provide supportive services to clients who adhere to their treatment plan. Services to graduates of the program may include inclusion in social events at Peacock Apartments, assistance with money management, and referral to other social agencies.

#### Long Range Goals

Increase board participation, public awareness, and fundraising.

Network with other agencies in increasing services to clients

The United States Fellowship of Florida (USFF) will operate the program; admin. offices are at 1320 Coco Plum Drive, Marathon, FL 33050

This will be a contractual relationship with a non-profit agency.

Peacock is not required to have a Dept. of Children and Families license, since therapeutic services are provided off-site.

This is not a new activity.

USFF cooperates and participates with mental health clinics which provide residents with treatment.

#### Staff

Program Director, Care Coordinator, three live-on-site Residential Mental Health Workers and one part-time Residential Mental Health Worker.

Staff will complete Adult CPR/First Aid and HIV Training.

Staff will monitor and assist residents on a daily basis, performing monthly drug tests, transportation, medication supervision, and ensuring residents attend all appointments with their mental health provider.

## Project Summary (Continued)

Expulsion may result from non-compliance to medical treatment plan or failure to comply with program rules (e.g., substance use and violence). If possible, a behavioral contract is implemented to prevent expulsion.

Incentives to comply with treatment plans are an integral part of the program. A major incentive to comply with rules is the low cost of our housing. The structured, supportive environment is also an incentive for our clients to remain stable. For rule violations, offenders will receive a three-day notice to comply and a new service plan or behavior contract. Repeated violations or serious violations will result in eviction.

  - (3) The subgrant recipient failed to reasonably comply with such order.
- c. Upon request of the subgrant recipient, the Department shall ascertain the facts and the extent of such failure, and if the Department determines that any failure to perform was occasioned by one or more said causes, the delivery schedule shall be revised accordingly.

The subgrant recipient is responsible for the continued adherence to the regulation governing the operation of the system or faces the loss of federal funds. The Department's approval of the subgrant recipient agreement does not constitute approval of the subgrant-funded development or operation of a criminal intelligence system.

The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the INA. - b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

**36. Non-Procurement, Debarment and Suspension**

### **Problem Identification**

This program addresses the problem of youth crime, such as gang involvement, violence, and drug use. Children, their families, and the entire community benefit dramatically from having easily accessible quality after school programs. Data from a national study of after school programs by the Nellie Mae Foundation indicate that middle school children who spend three or more hours home alone during out of school time are significantly more likely to use drugs or alcohol, have high levels of stress and anger, experience more depression and behavioral problems, possess a lower self-esteem and perform poorly academically. The information from this study clearly points out the fact that a child's participation in a quality after school program not only benefits each child and the immediate family, but the entire community.

At the end of each school day, nearly 1,300 children from the Marathon area will leave the safety of their classrooms. Some will go home to a parent, some will go to an extracurricular activity and some will go to work. But many children will go it alone. Lacking adult supervision or access to an after school program, these children will be in danger. We know from various studies and statistics that the rate of juvenile-related crime actually doubles during the after school hours. This period of time is when a youth is most likely to commit a sexual assault, become involved in substance abuse, sexual activities or crime. The Boys and Girls Club fills that void and reduces the risk of criminal and antisocial behaviors by offering positive after school programming for children. In addition, due to the high cost of living and the lack of affordable housing in Marathon and throughout Monroe County, most parents are forced to work two jobs. This results in a tremendous number of latch-key children being left with little or no adult supervision during the critical after school hours, school holidays, and vacations. While these young people seem particularly vulnerable, statistics and experience make it crystal clear that all children are at risk in the after school hours if left unsupervised. The problem transcends demographics.

Too many children today grow up with few, if any, positive role models and little, if any, encouragement to resist alcohol, tobacco, other drugs, delinquent acts, or sexual activity. The norm and expectation for these young people, whether perceived or real, is that it is almost a "rite of passage" to participate in these destructive and often dangerous behaviors or actions. Not only is this the perception of young people themselves, but often the perception of the adults in their lives whose passive

## Problem Identification (Continued)

resignation encourages rather than discourages these behaviors. While young people are often taught skills to prepare them to face educational challenges, at critical stages of psychological, emotional, and intellectual development, they are often not taught the skills needed to make the successful transition from childhood to adulthood and to resist engaging in delinquent behaviors, premature sexual activity, or experimenting with drugs and alcohol. The Boys and Girls Club is committed to offering positive after school programs for youth in the community that address the issues of tobacco, alcohol, drugs premature sexual activity, violence, STD'S, gang activity, and healthy life skills.

### Needs Assessment.

The Boys and Girls Club of the Keys Area currently provides services to over 120 children each day in its after school programs and over 160 children over the summer. Over 50% of these children are from single parent homes or from homes where there is history of domestic violence or substance abuse. Over ninety percent are from families with living at or below the Monroe County Poverty Level index. Currently, all children who attend any of the Boys and Girls Club receive financial assistance. This assistance is either from subsidized child care from the state of Florida, assistance from the Department of Children and Families or from a Boys and Girls Club scholarship.

Families, especially single-parent families, cannot meet the needs of adolescents alone. Developmentally, adolescents need increased involvement with peers and adults other than their parents. In addition, young people must master new skills while experimenting with adult roles. While relationships with parents and families remain fundamental, the staff members of the Boys and Girls Club of the Keys Area can have a powerful, positive influence on the lives of young participants by providing additional continuity, direction, support and guidance. Emotional support is a vital source of affirmation. It is the addition of high expectations that motivates young people to excel. Research has consistently shown that young people benefit when they are asked to abide by clear rules and standards and when they are guided and monitored. Structure and predictability are critical elements that young people crave. The positive peer pressure and reinforcement of positive behavior developed with in the Boys and Girls Clubs of the Keys Area has and will continue to have a powerful impact on participant's choices and decisions

## Section 2: Project Overview (Cont.)

### Project Summary

#### Project Summary

With the guidance of caring adults, who mentor and empower them, members develop essential character traits including responsibility, respect for self and others, trustworthiness, fairness and caring - as they learn positive leadership skills that help them influence others in positive ways. Education and career development activities are designed to give young people the sense that they can do something well and have individual worth. Career exploration, discussing and debating important social issues, such as gang awareness, drug use and prevention, teenage pregnancy, STD'S, nutrition, and child abuse prevention offer constructive and ongoing dialogue. Health and fitness play a vital role in the Club which fosters and encourages healthy physical development, team building skills and other important life skills. Through recreational activities, Club members have fun and acquire self-confidence, a sense of fair play and skills in interpersonal relationships. These are the goals of Club related activities and programs: Our goal and commitment over the next funding cycle is to continue and enhance our efforts with our SMART Moves preventive programs by implementing this program in our Club in Marathon. These preventive programs are age specific and designed to encourage collaboration, interaction, support and education among Club staff, youth, parents and community service providers. The goals of each of these programs are to develop a positive concept of self worth; development of leadership skills; build resiliency; peer support and enhance each child's abilities to make positive decisions, to think before acting and to be proactive to situations rather than reactive. These year round programs are designed to educate and assist young people to resist alcohol, tobacco, substance abuse, delinquent behavior, gang involvement and premature sexual behaviors. The SMART Moves program serves as the foundation for SMART Parents; SMART Girls; Passport to Manhood, Act Smart and Street Smart.

The short term goal would be to establish a Boys and Girls Club in Marathon and to begin to offer an array of preventive, academic, and recreational programming to the youth of that community. Long term goals would be to continue to expand the number of youth we serve, days we are open as well as doing some community outreach.

The service provider agency will be the Boys and Girls Clubs of the Keys Area; its administrative location is 1400 United Street, Suite 108, Key West, FL 33040

The relationship of the County to the service provider will be contractual.

The Boys and Girls Club of the Keys has a Universal Prevention license from the Florida Department of Children and Families

This is not a new activity for the provider, but a geographical change only. We are expanding our successful prevention program in Key West to Marathon and duplicating our SMART MOVES gang prevention program.

The Boys and Girls Clubs of the Keys is excited to be partnering with The Educational Coalition for Monroe County (ECMC) to implement and develop a Boys and Girls Club in Marathon. ECMC is a county wide organization, founded in 1996 as a youth advocacy

- b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

**36. Non-Procurement, Debarment and Suspension**
